

Sunbeam

Client: Westbrooke Developments • System: TS Rail • Material: Acrylic Render
Sector: Residential • Build Type: New Build

SPSenvirowall TS Rail external wall insulation system has been specified for a unique new build development on the beautiful West Sussex coast.

The installer friendly system has been used on the walls of Sunbeam Lancing utilising EnviroCryl through-colour decorative façade render.

This stunning new development in Lancing perfectly illustrates how superior construction methods and materials can maximise the delivery of a new build designed to provide beautiful new homes to the purchaser.

The TS Rail EWI system with a white EnviroCryl through-colour decorative façade render enhances the profile of the building from all aspects and provides superior protection required for coastal apartments and fulfilled the requirements of the client of being NHBC compliant and fully fire tested.

waterproof according to VOB, part C, DIN 18363.

EnviroCryl also contains the same safe level of anti-fungicide as the EnviroSil finish, meaning they both have self-cleaning characteristics.

Resistant to atmospheric influences, very high resistance to environmental pollutants and micro-organisms, and also UV-stable.

An extended range of colour options are available in the EnviroCryl range, enabling deeper colours to be manufactured due to its molecular structure, giving it the ability to retain high pigmented colours.

CPD events available
